

THE UNIVERSITY OF BRITISH COLUMBIA

Undergraduate Programs and Admissions

Welcome back to school! Things may look a little different this year, but we're still committed to keeping you informed about all things UBC. While we are unable to visit your schools and communities this fall, we look forward to reconnecting with you virtually.

UBC online application : opening soon

UBC's 2021/22 online application will be opening at the end of September. We recommend that you and your students visit our [how to apply](#) page for an overview of the application process, and our [Personal Profile](#) page for tips on writing a strong Personal Profile.

Language 11 requirement: Vancouver campus

Applicants to UBC's Vancouver campus are required to have a Grade 11 language in addition to English. Students who entered the BC or Yukon school system after Grade 9 can have this requirement waived if their school counsellor or principal submits a written request on their behalf.

Transfer standing, external language certificates, and external language assessments granted at the Grade 11 level may also be used to meet the language 11 requirement.

Spotlight on UBC programs: Forestry

Think forestry is all trees and lumberjacks? Not even close! [Forestry](#) at UBC offers five hands-on, science-based degrees, including [Urban Forestry](#), [Wood Products Processing](#), and [Natural Resources Conservation](#).

Learn more from UBC student [Noa Mayer](#) about the exciting fieldwork that her Faculty of Forestry program has already helped her to achieve.

That's all for now! Looking forward to connecting with you virtually this fall.
Sincerely,

UBC's recruitment team
